

NORT

A track-mounted spotlight that offers a 90-degree tilt and 350-degree rotation. NORT features a replaceable COB LED module in a bayonet lamp holder, reflector, integral electronic driver and our patent pending VenTEC[®] technology, which extends product lifetime and delivers improved efficiency. Designed to be circular, NORT uses a modular design, so it is fully serviceable and upgradable. As part of the buy-back scheme, it can be returned to us at end of life when 86% of it can be reused or recycled.

Colours

White, Black, Grey and Silk
Special colours and textures available
Track is available in Black, White and Grey
Ability to mix and match colours of the outer body, reflector ring and heat sink

Light Source

COB LED module in bayonet holder
