

# NORT GS Mini

Lens

Reflector

Smaller than NORT GS, the Mini is transformative, delivering a modern and efficient aesthetic in a compact solution whilst lighting a space efficiently—a perfect luminaire for low ceilings. It offers 350-degrees of rotation and 90-degrees of angle adjustment. 3D printed from biopolymer materials, it uses a smaller in-track driver. Designed to be circular, NORT GS Mini uses a modular design, so it is fully serviceable and upgradable. As part of the buy-back scheme, it can be returned to us at end of life when 71% of it can be reused or recycled.

## Colours

White, Black and Grey  
Special colours and textures available  
Track is available in Black, White and Grey

## Light Source

COB LED module  
CRI90; 2700, 3000, 3500 and 4000K
