

Piston - Reflector LE

Certified

Biopolymer

Modular Design

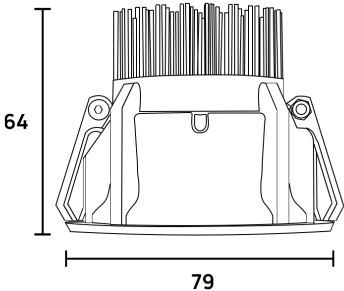

3D printed

Circu-light

Piston is a small but impactful recessed downlight. Its compact design allows for more space so that clusters of light can be used for visual effect. Suitable for use in fitting rooms and ceilings with a small void space. Engineered for a seamless fit with a standard 67mm core drill cut-out for easy installation. Custom bezels are available to adapt to existing ceiling cut-outs up to 100mm. Piston is fully serviceable and upgradable. As part of the buy-back scheme, it can be returned to us at end of life when 63% of it can be reused or recycled.

Colours	Light Source	Variations
