

Linear

NATRIO

Natrio is the world's first UK-made biopolymer, track-mounted linear luminaire, a refined blend of modularity, circularity and high performance. Its lightweight extruded and 3D-printed biopolymer body is fully recyclable, repairable and dramatically lower in footprint. Inside, COB LEDs, precision lens optics, an integral low-voltage driver and advanced ventilation deliver exceptional efficiency and consistent visual comfort.

Colours

Black/Black
Black/Grey
White/Black
White/Grey

Light Source

COB LED board
CRI90; 3000 and 4000K

Diffusers

30, 60 or 90-degree
Elliptical
Single Asymmetric
Double Asymmetric

Materials

Extruded and 3D printed biopolymer

Installation

Mounted to Global 3-circuit lighting track

Driver

On/off, Casambi and DALI

Max Power

65w

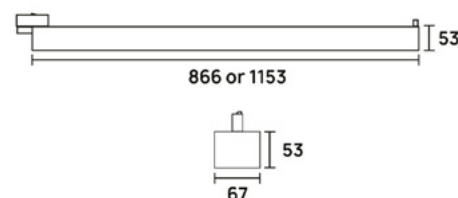

Max Lumens

8970

Standard Measurements

Luminaire Lumens/Watt

Up to 138
